

## Post-fire resources for eastern Oregon livestock and agricultural producers

For immediate assistance associated with livestock, forage, and crop losses contact your county's **USDA Farm Service Agency (FSA) office**. Available programs:

- **Non-Insured Crop Disaster Assistance Program (NAP)** - provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters including excessive wind and qualifying drought (includes native grass for grazing).
- **Livestock Indemnity Program (LIP)** - offers payments to eligible producers for livestock death losses in excess of normal mortality due to adverse weather.
- **Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP)** - provides emergency relief for losses due to feed or water shortages, disease, adverse weather, or other conditions, which are not adequately addressed by other disaster programs.
- **Emergency Conservation Program (ECP)** - provides emergency funding for farmers and ranchers to rehabilitate land severely damaged by natural disasters; includes fence loss.

Learn more about these and other disaster relief programs at [farmers.gov/protection-recovery/wildfire](https://farmers.gov/protection-recovery/wildfire) and contact your **FSA Service Center**:
